

## Rule Synopsis

### Draft rule language for Ohio Administrative Code (OAC) Chapter 3745-72 Low Reid Vapor Pressure Fuel Requirements – 5 Year Review

The Ohio EPA Division of Air Pollution Control (DAPC) has completed draft rule language for OAC Chapter 3745-72. The draft amendments are being made as a result of the 5 year review of the rules as required in Ohio Revised Code (ORC) 119.032. On February 13, 2015, these rules were sent out for a 30-day comment period. No changes were made as a results of comments received. Based on the 5-year review, the following changes to this chapter will be proposed to the Joint Committee on Agency Rule Review (JCARR):

1. Minor Style and Typo Changes: Ohio EPA is making various minor changes to correct typos and update the rule language in this chapter to meet legislative service commission (LSC) style and formatting guidelines. These changes are being made throughout the chapter, are minor in nature, and do not affect the scope or intent of the rules.
2. Test Method, Publications, Referenced Materials: Ohio EPA is making various minor changes to update test method, publication and referenced material titles, effective dates, addresses and web sites. These changes are being made throughout the chapter, are minor in nature, and do not affect the scope or intent of the rules.
3. OAC rule 3745-72-01 (Applicability)

Ohio EPA is deleting the following provisions:

OAC rule 3745-72-01(B) and (C) provides for low RVP to be a contingency measure under the 1-hour ozone standard in certain areas of the state. The 1-hour ozone standard has been revoked and replaced with the 8-hour ozone standard and contingency measures are no longer required under the 1-hour ozone standard. The low RVP contingency requirements were never triggered or implemented since the requirements became applicable under this rule. Ohio EPA is deleting these requirements.

3. OAC rule 3745-72-02 (Definitions)

Ohio EPA is revising the following definition:

72-02(B)(8) "Importer" This term is being revised to more clearly define what Ohio EPA considers to be a better description of the term importer for the purpose of this rule.

Ohio EPA is deleting the following definition:

72-02(B)(13) "Motor Fuel System" This term is not used anywhere in the rules and thus is being deleted.

Ohio EPA is adding the following definition:

72-02(B)(14) "Person" This definition is being added since this term is used in the rules and thus needs to be defined.
