

Public Notice
Ohio Environmental Protection Agency
Recommended Designation of Nonattainment Area Boundaries for the 2012
Annual PM2.5 Standard

The Ohio Environmental Protection Agency (Ohio EPA) is soliciting comments regarding the extent of Ohio's nonattainment areas for the revised annual PM2.5 National Ambient Air Quality Standard (NAAQS) which lowered the 1997 annual standard from 15.0 micrograms per cubic meter ($\mu\text{g}/\text{m}^3$) to 12.0 $\mu\text{g}/\text{m}^3$. The United States Environmental Protection Agency (U.S. EPA) adopted this revised annual PM2.5 standard effective on December 14, 2012. The comments received will be used to formulate the State's formal recommendation proposal to U.S. EPA. Ohio EPA's preliminary recommendations are for the following counties to be designated nonattainment for the revised annual PM2.5 standard: Cuyahoga, Stark, Jefferson, Butler, Clermont, and Hamilton. The remainder of the State is recommended as unclassifiable/attainment.

These actions must be noticed to allow public comment and to satisfy U.S. EPA requirements for public involvement in state implementation plan related activities. Comments should be submitted on or before December 5, 2013 at the following address:
