Dear Mr. Vandersall:

On July 7, 2008, Ohio Environmental Protection Agency (Ohio EPA) received an alteration request for Countywide Recycling and Disposal Facility (Countywide RDF) as designed in permit-to-install (PTI) number 02-14796 approved June 2, 2003. The submittal requests to alter the design of the phase development and stormwater management of the facility.

The PTI alteration request included engineering plans for phase change, revised slope stability analysis calculations, stormwater management calculations, temporary leachate sump calculations and slope stability calculations for the final cap runout on the south edge of cells 13-15.

The above noted alteration request as submitted on July 7, 2008, has been reviewed by Ohio EPA and appears to meet the intent of the design of the landfill as approved in PTI number 02-14796. Ohio EPA NEDO hereby approves the above noted alteration requests to PTI Number 02-14796.

If you have any questions, feel free to contact me at (330) 963-1244.
